

Electronic Publications and Other Sites of Interest

Many publications in the fields of glaciology and climatology are available to users electronically and are listed below. Workshops and many related organizations also use the World Wide Web to provide information, publishing forums, and on-line discussion opportunities. Some of the journals and other publications listed below may also be available in print format in the NSIDC Information Center.

E-Books (links to .pdf or html files), E-Movies, etc.

[Arctic Sea Ice Thickness: Past, Present, and Future](#) edited by P. Wadhams and G. Amanatidis, Part 1 (takes a very long time to load...be patient)

[Arctic Sea Ice Thickness: Past, Present, and Future](#) edited by P. Wadhams and G. Amanatidis, Part 2

[Ice sheet model SICOPOLIS](#) Ralf Greve

[International Classification for Seasonal Snow on the Ground](#) prepared by the Working Group on Snow Classification

[Paleoclimate, Global Change and the Future](#) edited by Keith Alverson, Raymond Bradley, Thomas Pedersen

[Setting a course for Antarctic Integrated and System Science \(AISS\)](#) NSF Office of Polar Programs, Antarctic Division

[Simulated sea ice thickness and satellite observed ice extent for Summer 2007](#) Polar Science Center, Applied Physics Laboratory, University of Washington

E-Ice Charts.

Two of the publishers of sea ice charts have switched from paper to internet publishing. Follow these links for the latest charts.
