

IICWG-XIX PLENARY ACTION ITEMS

Updated – September 6, 2019

- 18-7: Develop software to transform ASPECT code to SIGRID-3 code. Work with the Data Committee to share the code.
Responsible: Petra Heil, Jan Lieser
Due Date: July 2018
Status: **OPEN**.
- 19-1: See if the NWS Alaska Region could produce ice charts with standard coding and colours.
Responsible: Tom Cuff
Status: **CLOSED**. NWS Alaska now produces ice charts with international standard colours.
- 19-2: Ensure that the Ice Logistics Portal is kept up to date and investigate the possibility of providing more content.
Responsible: Jürgen Holfort
Status: **OPEN**.
- 19-3: Secretariat to schedule quarterly teleconferences of the Co-Chairs Coordinating Group – mid November, February, May, August.
Responsible: John Falkingham
Status: **CLOSED**. Teleconferences were held in November, February, May, August.
- 19-4: Task Teams Leads to draft work plans prior to first Coordinating Group teleconference.
Responsible: Task Team Leads
Status: **CLOSED**. Draft work plans were discussed at the Co-Chairs Coordinating Committee November 15, 2018.
- 19-5: IICWG to send letter to European Commission Copernicus program conveying our support to both the ROSE-L and CIMR missions with a priority for ROSE-L should a choice become necessary.
Responsible: John Falkingham / Co-Chairs
Status: **CLOSED**. Letter was sent October 12, 2018. A reply was received October 26. Both are posted on the IICWG website.
- 19-6: Provide Jürgen Holfort with a list of links to web sites containing historical ice information suitable for mariners. Jürgen to add to the Ice Logistics Portal.
Responsible: John Falkingham / Jürgen Holfort
Status: **OPEN**. John provided a list of suitable sites to Jürgen. Posting on the Portal is still pending.
